

21.5" Marine Panel PC with 12th/10th Gen Intel® Core™ i Processor

Overview

MP-210 is a fanless 21.5-inch marine Panel PC, powered by 12th/10th generation Intel® Core™ i5/i7 Processor, used for high-performance computing. It adopts a modular design, which facilitates CPU board or I/O board upgrades and ensures stable system structure and reliable industrial performance. Adopting a large-sized and high specification display screen, a multi-point touch capacitive screen, and optional AG AF treatment on the glass surface, combined with the front panel brightness adjustment knob, it is more suitable for ship applications. The aluminum alloy front panel, metal body, and excellent heat dissipation performance ensure that the electromagnetic compatibility design of the entire machine complies with the ship's electrical specifications.

Features

- 21.5" LED-backlit LCD with capacitive touch screen
- Optional AG AF glass surface treatment
- Rugged aluminum enclosure and fanless design
- 12th/10th Gen Intel® Core™ i5/i7 processor
- DC 12V/ DC 9~36V
- Supports VESA 100 mount and panel mount
- Front panel integrated switch, brightness adjustment knob
- IP65 compliant front panel

Operating Temp.

IP65
